

2.5 YEARS

Developmental Screener

Name:

.....

Observation completed by:

Printed name

Signature

This developmental screener is here to help give your child the best chance of success. As frequent carers of your child, preschool teachers can help identify delays early on and prompt intervention.

Your child's preschool has been provided with developmental screener booklets for each child up to 3.5 years old. Preschool teachers screen each child by checking off what developmental skills they do and do not identify whilst at daycare. This booklet is then passed on to parents.

Recommendations

If your child's total score is one of those indicated below, we would highly recommend further intervention and assessment. Spring Forward's contact information is provided on the back of the booklet.

Total of 6-7/10 Bayley Screener

Total of 5 (or less) /10 Full Bayley Assessment

2.5 YEARS CHECKLIST

OBSERVED
CONSISTENTLY

NOT
OBSERVED

TOTAL /10

The total identifies the total number of ticks for 'Observed Consistently'

RECOMMENDATION

☐

Bayley Screener

☐

Full Bayley Assessment

☐

Continue to monitor with age-appropriate activities

What is the Bayley Early Development Assessment?

It is a development assessment designed to evaluate a child's early development from as early as 1 month of age up to 3.5 years.

Why Bayley?

The Bayley Scales of Infant and Toddler Development is regarded as the most accurate early intervention assessment for a child's development. It allows us to identify delays early on and prompts intervention and treatment plans across relevant disciplines such as Occupational Therapy, Physiotherapy and Speech Therapy.

We understand day carers don't see your child at home. Parents, scan this QR code to access our online developmental screener. Assess your child from what you see at home and what your child's day carers have observed.

About Spring Forward Family Centre

Spring Forward is a family-friendly practice with a strong focus on supporting children, their families and educators through therapy to be able to lead fulfilling and independent lives.

Our aim is to provide a valuable service that is both affordable and accessible for families in a holistic setting – by combining our niche skills under one roof for a complete service.
